

TRI DO

Junior Full-Stack Developer | Web Developer | Software Developer

Moncton, NB | dominhtri055@gmail.com | 506-343-4485 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Recent Software Development graduate from New Brunswick Community College (NBCC) with hands-on experience building responsive web applications, REST APIs, mobile apps, and database-driven systems. Comfortable across frontend and backend development with JavaScript/TypeScript, React, Next.js, Angular, Node.js, Java/Spring Boot, SQL, and modern development tooling. Strong foundation in API integration, authentication, CRUD workflows, responsive UI, and relational/non-relational data.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Angular, Tailwind CSS, Responsive Design
Backend	Node.js, Express.js, Java, Spring Boot, PHP, Flask, REST APIs, Authentication, API Integration
Mobile	React Native, Expo, Kotlin, Jetpack Compose, Swift, SwiftUI
Data & Tools	PostgreSQL, MySQL, MongoDB, Supabase, Git, GitHub, Docker, Postman, VS Code, Vercel

EXPERIENCE

Software Development Intern - Beetech Solution LTD Apr 2026 - Jun 2026

- Applied software development concepts to practical tasks in a professional team environment while following established project workflows, coding procedures, and organizational standards.
- Collaborated with team members, adapted to technical requirements, and demonstrated strong dependability, communication, and professional workplace practices.
- Received strong internship evaluation results, including 5/5 ratings for dependability and safety/policy compliance.

SELECTED PROJECTS

ShopPilot Mobile | [React Native](#), [Expo Router](#), [TypeScript](#) [GitHub](#)

- Built a mobile shopping application with reusable UI components, route-based navigation, session checks, and a scalable structure for authentication and commerce features.

Restaurant Event Management | [Java](#), [Spring Boot](#), [Thymeleaf](#), [MySQL](#) [GitHub](#)

- Developed a full-stack event management system with search by name/date, database persistence, and archive logic for expired events instead of destructive deletion.

License Plate Assignment API | [Node.js](#), [Express](#), [TypeScript](#), [MongoDB](#) [GitHub](#)

- Created a REST API with 17-character VIN validation, Ontario-style plate generation, API-key authentication, routing, middleware, and MongoDB persistence.

Tax Calculator | [HTML](#), [CSS](#), [JavaScript](#), [Node.js](#) [GitHub](#)

- Built a responsive calculator with client-side validation, calculation logic, and a Node.js endpoint connecting frontend interactions to backend processing.

HireTrack | [Kotlin](#), [Jetpack Compose](#) [GitHub](#)

- Built an Android job-tracking application using modern Jetpack Compose UI patterns and a mobile-first workflow for managing application activity.

Developer Portfolio | [Next.js](#), [TypeScript](#), [Tailwind CSS](#) [GitHub](#)

- Designed and deployed a responsive portfolio showcasing projects, skills, experience, and contact information with a reusable component-based frontend.

ADDITIONAL DEVELOPMENT

- Built Node/Express APIs using authentication, API keys, pagination, caching, compression, rate limiting, validation, and structured REST endpoint patterns.
- Developed additional Android and iOS applications with Kotlin/Jetpack Compose and Swift/SwiftUI/SwiftData; practiced SQL CRUD, JOIN queries, relational design, MVC, OOP, and Git-based workflows.

EDUCATION & CERTIFICATIONS

NBCC - Information Technology: Software Development Diploma	2024 - 2026
Responsive Web Design Certification - freeCodeCamp	Jul 2026
IELTS General Training - Overall 6.0 (CEFR B2)	Apr 2026
