PROFESSIONAL SUMMARY

Junior Full-Stack Developer focused on React, Next.js, and TypeScript. Builds responsive applications with authentication, typed data access, and database-backed workflows. NBCC Software Development diploma graduate with internship experience at Beetech Solution Ltd.

TECHNICAL SKILLS

Core: React, Next.js, TypeScript, JavaScript, Node.js/Express, Python/Flask, REST APIs

Data & Delivery: PostgreSQL/Supabase, MongoDB, Git/GitHub, Vercel

EXPERIENCE

Software Development Intern - Beetech Solution Ltd. | Apr 2026 - Jun 2026

- Implemented a rating feature, tested its behavior, and resolved issues using supervisor feedback.
- Developed and tested CRUD workflows, input validation, and database-connected application logic; used Git to manage changes within a development team.

SELECTED PROJECTS

ShopPilot | React Native, Expo, TypeScript, Supabase, PostgreSQL

- Built a merchant dashboard for products, inventory, orders, store settings, and analytics using a shared codebase for web, iOS, and Android.
- Implemented authentication, session recovery, product image storage, order workflows, and PostgreSQL Row Level Security for merchant-owned data.
- Separated screens, session state, typed API modules, and business rules to make data access reusable across the application.

ScheduleBooker | Python, Flask, PostgreSQL, JavaScript

- Contributed responsive booking, login, dashboard, and appointment-management interfaces for a multilingual scheduling platform, integrated with conflict-safe availability and PostgreSQL-backed workflows.

Live: schedulebooker-web.onrender.com

License Plate Assignment API | Node.js, Express, MongoDB, Mongoose

- Built VIN-based assignment, revocation, and verification endpoints with MongoDB; added API-key authentication, rate limiting, input validation, and centralized errors.
